DEATH LIST IS LARGE

COMMENT OF JEROME.

About One Hundred Buildings Laid Low and the Shrieks of the Injured Persons Are Piteous in the Extreme.

Says There Is Danger That in the Future Trial Will Be by Newspaper and Not by the Jury Method.

Snyder, Okla., May 12.—All estimates of the number of persons killed by the tornado exceed 100 and 150 persons were injured, more than forty seriously. Ninety-five persons are known to be dead, several are missing and a number of the injured are in a critical condition. The wounded found shelter in an improvised hospital until Thursday night, when they were taken to hospitals in Guthrie and Oklahoma City. The financial loss is estimated at \$350,000. The havoc wrought by the tornado is complete. Out of a town of 1000 people not more than a score of houses are intact, while two-thirds of the buildings were wrecked. The storm formed south of Olustee, near the Texas line, and took a northeasterly course through a well-settled section. At 8 o'clock it was observed by the people of Snyder but the usual funnel-shaped formation was lacking and though the roar was plainly heard for some time before the storm broke many were of the opinion that it was a hail storm.

Within a few minutes the sky became suddenly dark and a terrific downpour of rain began, lasting several minutes, when it stopped almost as suddenly as it had begun. A few moments after an ominous calm followed and then the tornado, tearing buildings to pieces as though they were made of paper.

Many people who had thought to take advantage of the calm to seek refuge in cellars were caught in the streets and between buildings, while some were lifted high in the air and dashed to the ground as though hurled from a catapult, while others were struck by flying debris and beaten beyond recognition. Those who remained in their houses fared no better in the path of the tornado which swept across all excepting a few blocks in the southeastern corner of the town. The frame structures collapsed like egg shells, burying occupants under the debris, killing, crushing and maiming.

Six of the eight hotels were torn to pieces, burying many in the wreckage. North of the railroad track, where many cottages stood none is left, and there the wreckage is mostly carried away.

In a few moments it was all over and the air was filled with shrieks of injured, mingled with the cries of those who had escaped and were seeking lost ones. Within a short time messengers were dispatched to Mountain Park, two and one-half miles away, where the news was sent by telephone to Hobart. Physicians and nurses were called for and relief trains were made up at Mangum, Hobart, Chickasha and Lawton and hurried to the scene by the Frisco. Meanwhile the able bodied worked heroically all through the night. A building was utilized as a temporary hospital and another as a morgue. The latter, a dry goods store, presented a gruesome appearance when day dawned with the corpses lying tier above tier on the shelves. The search for bodies continued during the day. At 6 o'clock eighty had been recovered. Others are being searched for which with the casualties reported from the country will probably raise the death list to 100. Several of the injured will be added to the list of fatalities.

The most pressing need is financial. Citizens and appeals were sent out to the leading cities of the territories asking for immediate assistance. In addition to the seriously wounded who are being cared for at the hospital, many sustained lesser injuries and are incapacitated for the work of caring for those who are in need of assistance.

The property loss is variously estimated at from \$300,000 to \$400,000. Two hundred residences are demolished and about half the business buildings are practically a total loss. The remainder are more or less damaged. The Hilton, the largest hotel in town, remains intact.

The storm formed near the Texas line and its path extends in a northeasterly direction for over forty miles causing damage at Lutsee and other small towns and in the country as well as at Snyder. Reports indicate that the casualties outside of Snyder will aggregate over twenty-five and may go higher.

Paul Crump, a boy whose head and arms were cut off, was making some purchases in the Mize store. He was being attended by Miss Mary Mize when the tornado struck the building. Miss Mize gathered the boy in her arms and started out of the front door, and almost at the same time a sharp timber struck the boy, cutting off his head and bruising Miss Mize about the face, but not otherwise injuring her.

Taken Over Holdings.

San Francisco, May 12.—Dispatch from Los Angeles to the Chronicle says E. H. Harriman of the Southern Pacific has taken over the holdings of the Ladura mines in Sonora, Mex. The price paid is said to be in the neighborhood of \$1,000,000. The mines are located at Ladura, near the head of the Yaqui river.

NAN PATTERSON.

trial by newspaper rather than trial by jury." He approved of all his assistant, Mr. Rand, had done or said in conducting the case, and added: "The people for whom I care approve our action. From the same part of the community we have received nothing but firmness. I have information that admits of no doubt that there was unanimity in the jury room on three points: First, Morgan Smith bought the pistol; second, Nan Patterson took the pistol to the cab with her; third, Caesar Young did not commit suicide. I ask that the prisoner be discharged on her own recognizance."

NINETY-FIVE BODIES.

Thirty-Five Persons Were Still Missing Up to Noon Friday.

Snyder, Okla., May 12.—Ninety-five bodies of victims of Wednesday night's tornado had been found up to noon Friday. At that time thirty-five persons were still missing. The list of seriously injured numbered 115, of whom twenty-five are believed to be fatally hurt. Twenty-five or thirty others are slightly hurt. Financial loss is estimated at \$500,000. Reports brought in from the country, which has been shut off since Wednesday night by lack of telegraph facilities, indicate twenty-five persons were killed outside of Snyder, making a possibly total dead of 120. Verification of the loss of life in country will naturally be slow.

PITABLE SCENES.

Want and Suffering Prevail in Stricken Town of Snyder.

Snyder, Okla., May 12.—Pitiable scenes of want and suffering are seen here on all sides. Much confusion still exists, despite the efforts of hundreds of outsiders to aid the victims of Wednesday night's tornado. Thursday night many who lost everything they possessed went hungry, practically unprotected from the cold. Many bodies were lying in the temporary morgues and remained unidentified, while among the injured are dozens who suffered from ugly wounds or broken limbs without proper medical attention. Others are still missing and the exact list of casualties could not be ascertained Friday.

Guthrie, May 12.—Governor Ferguson has issued a request upon the mayors of various Oklahoma towns, business heads of charitable organizations and the pastors of churches to collect funds for the assistance of the sufferers, there being no statutory means for the appropriation of money for calamities to the one at Snyder. Numbers of cities have responded and assistance is being rendered as fast as practicable.

Governor Ferguson has ordered the signal corps of the National Guard to proceed to Snyder from Lawton to aid in the rescue work.

O. B. Regal, a lawyer, says when the storm struck he opened the door of his office in one of the business houses, which was the last thing he knew. When he came to, he was scrambling in the wreckage of a residence almost 200 years away.

CITY COUNCIL MEETING.

The city council met in regular session last night Alderman W. S. Howell, mayor pro tem, presiding in the absence of Mayor Harrison, out of the city to attend his father in the latter's illness. All other officers present.

The reading of minutes and officers' reports were disposed of in the usual way.

The fiscal agent's report showed balances as follows:
Public Improvement fund.. \$1956 42
Waterworks fund..... 4 93
Special street fund..... 1619 52
Special water fund..... 4085 00
Building and street fund... 568 80
Tax and fine fund overdrawn 285 80
Street appr. fund..... 570 50

The secretary's report showed total collections of \$169.84 for the month of April.

Aldermen Boyle and Covey were appointed a committee to buy a pair of mules for general street work and to cut the weeds.

The street committee was authorized to sell the city park fence; and the finance committee to sell the old fire bell.

Mr. J. Adoue was present and invited the light committee to visit Calvert and inspect the electric lights of that town with a view to making a new contract for lighting the streets of Bryan. The committee was authorized to make the trip and will go to Calvert on Sunday evening.

Mr. Adoue, referring to his request for permission from the council to sell the Bryan light plant, stated that he had propositions from two parties in Bryan to purchase the light plant exclusive of the water works. The matter was discussed at some length, but no action taken. It was, however, the opinion of the council that permission to sell may be granted under proper arrangements.

G. Napoli, the cigar manufacturer, who left Bryan last fall and is now located at Venita, Ind. Ter., passed through the city yesterday en route home. He says he is coming back to Bryan in September to make his home here again.

ELECTION BILL.

Senator Decker Scores Severely the Primary Provision.

Austin, May 12.—Senator Decker in the senate severely scored the primary provision in the general election bill. Senator Looney defended it. Compromise substitute amendment was adopted—23 to 4.

Senator Decker offered an amendment to the bill as amended so as to admit of proxies in conventions when no delegate is present from the counties. Adopted.

Speaker Seabury appointed Messrs. Cobb, Love of Dallas, Webb, Shannon and Mays to confer with senate committee on banking bill.

An agreement was reached by the free conference committee on the general appropriation bill.

Representative Love of Dallas created quite a stir in the house to-day on quite a stir in the house on a question of personal privilege in which he charged certain newspapers with misrepresenting the legislature.

A resolution was adopted providing for printing 1000 copies of the state banking bill to be distributed among members of the legislature and others interested. A resolution to distribute all unused letter heads of the house of representatives among the members was tabled by a vote of 58 to 37.

The senate spent the entire morning session of Friday discussing the committee substitute for the general election bill, the substitute having been adopted Thursday evening.

The senate went under call on the bill.

RED-HOT REPORT.

Grand Jury of Grayson County Sends In Warm Document.

Sherman, May 12.—The grand jury has handed in a red-hot report. It charges that the local option laws of Grayson county are being openly violated in Denison and Sherman and that conditions are constantly growing worse. The report charges that local peace officers in both cities admit that they have not tried to make arrests in local option cases. The jury charges that officers visit cold storages and in many instances accept favors from proprietors of the same and are under obligations to them.

The jury reports that there are large sums of money in the hands of Grayson county officers that belong rightfully to the state of Texas, through a misconstruction of the fee bill law, and recommends that an auditor be appointed to investigate this matter and go back in its investigations to the first business transacted under the fee bill law.

GOODBYE, BOYS."

With These Words Holly Vann's Soul Ushered Into Eternity.

Dallas, May 12.—At 1:21 o'clock Friday afternoon Holly Vann was hanged in the Dallas county jail. His neck was broken. Father Hayes of the Roman Catholic church baptized him during the morning and was with him on the scaffold. This was the first execution of a white man here. Vann was in his thirty-first year.

The crime for which the young man paid the extreme penalty of the law was the murder of Sol Aronoff on the night of Nov. 29 last. Burrell Oates, a negro, who was with Vann, was also given the death penalty, but is endeavoring to get a rehearing.

LADY BADLY BURNED.

Gasoline Exploded and Mrs. Despain Fell In a Faint.

Sherman, May 12.—Mrs. Henry Despain, wife of the chief of police, was seriously burned. She lighted the gasoline stove to cook supper. The generator went out and the gasoline dripped in a pan underneath until nearly a quart accumulated. Mrs. Despain noticed the generator was not burning and struck a match to relight it, not noticing the accumulation of gasoline in the pan. An explosion followed, filling the room with flames and setting fire to the house in several places and to Mrs. Despain's clothing. She sank to the floor in a faint and was seriously burned. Mr. Despain arrived home very soon after the accident and found his wife unconscious and badly burned.

COLD NIGHTS CAUSE CATARRH.

Everyone Should Use Hyomei and Kill the Germs.

No other season of the year is responsible for as many cases of catarrh as the Spring. The warm days and cold nights, with their frequent and sudden changes in temperature, bring the catarrhal "snuffles" to nearly everyone.

The best physicians long ago saw the folly of taking medicine into the stomach to kill catarrhal germs in the head and throat. Air alone can reach these germs, and today the most successful physicians prescribe Hyomei for all catarrhal troubles.

The germ-killing and health-giving Hyomei, when breathed through the pocket inhaler that comes with every outfit, penetrates to the most remote cells of the air passages and respiratory organs. It searches out and kills catarrhal germs in the head, throat, and lungs, soothes and heals the irritated mucous membrane, and absolutely drives catarrh from the system.

Thousands of testimonials like this of Capt. Cameron, in charge of the Salvation Army at Berkeley, Cal., attest to the speedy relief given by Hyomei. Capt. Cameron writes: "I have been a sufferer from catarrh of the throat for a number of years, so bad that I could not speak so as to be heard at any distance. The first use of Hyomei relieved me, and I believe that it has given back to me the good voice I had in years gone by."

The complete Hyomei outfit costs but one dollar, and includes an inhaler and sufficient Hyomei for several weeks treatment. You take no risk in buying Hyomei. E. J. Jenkins absolutely agrees to refund the money if it does not give satisfaction.

Prepared at the Laboratory of E. B. W. & Co., Chicago, U.S.A.
SOLD BY M. H. JAMES.

Chicago, May 12.—A break in the ranks of the strikers is alleged to have occurred in the refusal of hay and feed drivers to observe the boycott. Deliveries were being made by union drivers to all "struck" firms. The excuse on which this action as being taken is that humanity demands it. The feed drivers claim that they do not wish to stand by and see horses starve to death. It is declared by observers, however, that this is merely a subterfuge to cover the real attitude of the drivers, who do not favor the strike and are anxious to go on with their work.

NOT GAZETTED.

Thought Baron de Rosen Will Be Suit-
able to Uncle Sam.

St. Petersburg, May 12.—The trans-
fer of Ambassador Cassini from Wash-
ington to Madrid has been officially
gazetted under date of May 9, but the
appointment of Baron de Rosen to suc-
ceed Count Cassini at Washington has
not yet been gazetted. In fact, Em-
peror Nicholas is awaiting formal no-
tification that Baron de Rosen is per-
sona grata to the United States before
signing the decree of nomination. Not
the slightest doubt exists here that the
baron is perfectly acceptable to the
government at Washington, where,
besides a high reputation as a diplo-
mat, he enjoys the personal acquaint-
ance of not only many officials, but of
President Roosevelt himself.

PEACE WAS NEAR.

Appearance of Russian Second Pacific
Squadron Revived Hopes.

London, May 12.—The Daily Tele-
graph's Tokio correspondent says he
knows for a fact from official sources
that peace between Japan and Russia
was nearly concluded when the unex-
pected appearance of the Russian
Second Pacific Squadron in the China
sea revived Russia's hopes.

"Even now," the correspondent adds,
"nobody here doubts that peace is com-
ing, perhaps through President Roose-
velt's offices, he having learned that
Russia desires to end the war and hav-
ing ascertained the terms which would
be agreeable to neutral powers."

NEW POLICY.

Employers Put It Into Execution
at Chicago.

Chicago, May 12.—Employers began
the execution of a new policy as to
the teamsters' strike. Men in various
manufacturing industries have been
laid off because of lack of business
brought about by the strike. At the
Employers' association office it was said
a number of men were laid off because
of dullness in trade consequent on lack
of demand for certain manufactured
goods, that it would run into thousands
of dollars and would continue unless
normal business conditions returned
soon.
